

Maureen O'Kane

Speaker / Teacher / Author

Scripture and Science

*"...always be ready to
make a defense to
everyone who asks you to
give an account for the
hope that is in you..."*

1 Peter 3:15

Exploring our planet and the cosmos through unique images and compelling quotes from scientists, this program will reveal our God is more than capable in fulfilling His promises, and that His Word is still relevant for today's post-modern culture.

Presentations

Audio & Visual Programs

The Earth Sciences

Primitive cultures did not have the tools we have to discover earth sciences, and yet they knew about them centuries before modern science! Through beautiful images and video clips, we open Scripture's pages and learn what the ancients understood.

Our Solar System

What do our neighboring planets and moons teach about creation and the choice Jesus so desperately wants us to make? A journey through our solar system provides a visually dramatic answer.

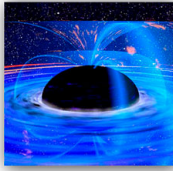

Deep Space

Earth is strategically poised at the edge of the Orion arm in our Milky Way Galaxy, allowing us an unobstructed view of the universe that surrounds us. With ground and space telescopes' incredible images, we peer deep into space and discover the evidence.

The Big Bang

Theories presented as fact, guesses published as evidence, costly projects based on assumptions - is this true science? Join us for a side-by-side look at creation and evolution's claims, as well as the issues scientists are re-visiting.

Black Holes

Did you know what the general public thinks is proven science, is still being debated in the scientific community? That black holes are a common belief of both creationists and evolutionists? That Scripture has something to say about these phenomena? Get ready for a paradigm shift.

Do the Math

Were mathematics discovered or invented? If the former, then who is the mathematician behind the language of the universe? If the latter, then we can credit this abstract science to humans. Is there any evidence for the answer? Prepare to see math in a whole new light.

Especially for Women

Did you know the only true Prince sees us as the apple of His eye, the very center of His attention? Join us for a visual journey through time and space as we see, perhaps for the first time, the beautiful home, life, and love our Prince offers you and I.

Speaker Information

Schedule Maureen: The Details

With each program, Maureen's goal is to share God's creation message with people of all ages and backgrounds through a doctrine-neutral, interactive format.

The presentations can be tailored to best fit your audience. For young students (grades K-8), there is a hands-on option that includes fun science experiments to make each lesson more easily understood and memorable.

Fees are based on location and your organization's budget. *

3 Easy Steps

1. Call or e-mail to schedule:
P: 360-582-9190 E: Maureen@DareToCheckItOut.com
2. Choose presentation(s) for your audience.
Maureen can help with the choices.
3. Discuss A/V with Maureen. She can bring her own equipment if needed.

*This is not a self-supporting ministry.

Rave Reviews

“Riveting for Both Scientist and Non-Scientist”
“My feet have hardly touched the ground since seeing this program.”
“Positive, informative, connects extremely well with audience.”

“Thank you for bringing us a delightful talk on the wonders of God’s creation. I believe I can speak for everyone who was there, that it was informative and well presented, as well as enjoyable. Your enthusiasm is contagious!”

– Bruce Barton, Meteorologist, Vice President of C.A.P.S., Seattle WA

“Resourcing, photos, content and presentation are top drawer! Fast-paced and fascinating. Very enjoyable. I recommend this for any group.”

– Dr. John Glass, Pastor, LaPine, OR

“Refreshing, built my faith, kept people mentally engaged throughout. Kid-friendly and interactive, one of the best presentations we’ve ever had.”

– Jeff Nelson, President Design Science Association, Oregon Chapter

“Maureen does an excellent job of linking recent scientific discoveries to Bible truth. Not only does her presentation engage the audience, but it leaves them with a fresh appreciation that indeed the Bible is like no other book.”

– Todd Garlick, Engineer for Sandia Labs, CA

“I believe a good presentation hits on such a personal level that it seems like God prepared it just for you. Maureen O’Kane’s presentation on how we can discover a Heavenly Father who is so vast, whose incredible power and creative majesty is beyond all science’s understanding, hit me like a Big Bang.”

– Teresa Valentine, Realtor/Broker, Vancouver WA

The Book: "And There Was Light"

Available in Hard Copy and Kindle (Amazon)

Maureen O'Kane's *And There Was Light!* compares examples of Scripture's science with when modern science confirmed them to be true. It also proposes the reason why these ancient cultures understood scientific facts hundreds, and even thousands, of years earlier.

Written as an invitation to consider a fresh look at these often controversial manuscripts, this book is appropriate for both believers and non-believers.

Preface

On the top floor of an empty warehouse, two strangers stand at opposite ends, looking through windows at a crime occurring on the street below. You are asked to investigate. Do you interview just one of the witnesses or both? Will one view be enough to put the pieces together, or will having both raise the odds of finding the truth? Our world often portrays scripture and science as being like those witnesses: too much distance between them to be anything more than conflicting opposites. And yet they both testify to the same event and strive to answer the same questions.

Even our human response finds common ground as we study and experience both natural and supernatural worlds. People describe being changed from within, touched deeply, feeling a connection to something outside of themselves when immersed in either ancient wisdom or new discoveries. Is it possible these shared expressions and acknowledgments reveal a common Spirit?

This is an invitation to consider the view from my window...

My Heavens!

Background

Maureen O’Kane: Perspective and Spirit

Maureen grew up believing in evolution until she read a Bible for the first time at the age of 25. Creation’s straightforward story of a personal God designing each species presented a beautiful – and more logical – image of who we are in heaven’s eyes.

Since then, Maureen has shared Scripture science programs at schools, campgrounds, women’s retreat, churches, conventions (both U.S. and Canada), and State Penitentiaries. She has been invited to speak at the Design Science Association in Portland, OR, as well as the Creation Association of Puget Sound.

Her career and community roles have included:

- Marketing Executive for both national and international healthcare corporations
- Motivational Speaker for customer-service training videos
- PR for Non-Profit Organization for Adults with Developmental Disabilities
- Court-Appointed Advocate & Therapeutic Foster Parent
- Bible Class Teacher for teens (27 years) and adult seekers (6 years)
- Depression Recovery Seminar Facilitator Coordinator and Instructor

Maureen’s passion is to research scientific discoveries through the eyes of Scripture, believing science and faith together provide a more complete image of our Creator God.

On a personal note: Maureen loves to hike and explore, learn about our planet and fellow creatures, listen to different world views through documentaries and science forums. Family and friends are precious gifts from God, as is being given each day to make a difference.
